

GREAT WAR PICTURE WILL BE SHOWN AT THE LYRIC THEATRE

"THE BATTLE CRY OF PEACE" FOUNDING ON HUDSON MAXIM'S GREAT BOOK COMING EVENT.

Thirty-three Thousand People Used In the Cast—Symphony Orchestra 25 Pieces Accompanies the Film

If negotiations now being conducted by Manager Harry of the Lyric Theatre terminate successfully, "The Battle Cry of Peace," the great propaganda motion picture drama advocating preparedness against war and said to be the most wonderful and gorgious motion picture ever filmed will be presented in Corpus Christi within a short time exactly the same as it was presented more than 300 times in New York City at the Vitagraph theatre for \$1 per seat. This remarkable play was written by Commodore J. M. Blackton after he had read Hudson Maxim's book, "Defensible America" and since its production has been shown to the most distinguished audiences that ever witnessed a motion picture in America, among them being all of the members of the President Wilson's cabinet, all of the ex-presidents of the United States and the entire congress.

It is understood that "The Battle Cry of Peace" company has agreed to fill an engagement in Corpus Christi but that there is a hitch in the negotiations at present regarding the admittance fee to be charged. The company carries a symphony orchestra of 25 pieces, a corps of effect men, etc., and it is said that the producers seek a short engagement at the regular New York price of \$2 for the best seats, claiming that they are entitled to the original admissions fee charged in the metropolis by reason of the fact that the expense of exhibiting the film is even greater on the road than it was in New York where a long run was reported. The lyric management is endeavoring to convince the producers that a longer run is idle and a lower admittance fee would result more profits in the long run than a short run at the regular price. It is probable that the matter will be decided by tomorrow.

"The Battle Cry of Peace" is described by the New York American as being "the greatest war drama ever filmed" and judging from the great amount of discussion this picture has raised, it undoubtedly merits the description. An idea of the size of the production may be gained when it is said that 30,000 people are in the cast, both human and mechanical. The Author claims what might happen if the United States should be invaded by a foreign power. The destruction of the American Navy, the bombardment of New York City, the capture of Washington and many other scenes of a most spectacular character are vividly and interestingly brought to the attention of the spectators. It is said that more property was actually destroyed in preparing this picture than has ever been taken in photographing a drama for the screen.

GERALDINE FARRAR AT AMUSU THEATRE MONDAY

Famous Star Got One of the Many Famous Attractions at the Amusu This Week.

The attractions of the Amusu Theatre this week with Geraldine Farrar as the headliner set a new pose for every day, being features that other theatres in Texas are charging as high as 50 cents to see. In Houston and San Antonio it cost 25 cents to see Farrar in "Carmen." At the Amusu the regular prices will prevail.

Today's attraction will be the Broadway success "Excuse Me" a comedy in which a laugh is guaranteed for every minute. It is a five reel Pathé Gold Master production. On account of the Sunday closing laws no tickets will be sold and only those will be admitted who identify themselves as patrons by showing their concert books.

The Monday bill will be a Judge Lasky production of Geraldine Farrar in "Carmen" produced by Cecil B. DeMille. The production has been widely heralded throughout the country as one of the greatest pictures ever produced. Manager Elliott is expecting a heavy business for the attraction.

Marguerite Clark comes to the Amusu Thursday in "Sunset Waters" a Paramount story of circus life. The Metro offering on Wednesday will be Lionel Barrymore in "The Yellow Strand."

The second Blue Bird release is "Secret Love" with Helen Ware and Ella Hall. The Red Feather feature for Saturday will be Harry D. Care in "A Knight of the Range."

Never Before Such An Instantaneous And Sensational Success

From every state in the Union we hear of the amazing success of the latest Overland—the \$615 model.

At the New York and Chicago Automobile Shows—the two great national automobile events of the year—the \$615 Overland was the most widely discussed model exhibited.

And why not? An electrically started and electrically lighted completely equipped Overland with four-inch tires for only \$615!

Is there any wonder this car took the whole country by storm?

Season after season for seven years we have experienced one great success after another,

But this one tops them all.

No other achievement in the history of the entire industry parallels this record.

It stands out alone—boldly—conspicuously—unapproached. Never before has an automobile success been so rapid, so definite and so sweeping.

The \$615 Overland has made history. It marks the entrance of a new automobile value—a car complete in every sense of the term at a price which was hitherto thought impossible.

Yet here it is—a powerful five-passenger touring car complete for only \$615.

Note that word "complete."

This means electric starter and electric lights, electric horn, magnetic speedometer—in fact, every necessary item. Nothing is lacking. There are no "extras" to buy.

Note that the motor is the very latest en bloc design—the last word in fine engineering.

In addition note that the tires are four-inch size. This is another big advantage. Many cars costing more have smaller tires.

Note that the rear springs are the famous cat lever type. Another advantage. Cantilever springs mean the utmost in riding comfort.

Note the headlight dimmers—the electric control buttons on steering column—demountable rims and one-man top. These are all big advantages.

This newest Overland is light in weight, easy to handle and very economical to operate.

It's just the car the world has been waiting for.

It is large enough for the whole family—moderately priced, within the reach of the majority—economical to maintain—built of the best quality materials—snappy, stylish and speedy and complete in every sense.

In short, it is just another striking example of how our larger production enables us to build a bigger and better car and still keep the price within reason.

You'll want one, so order it now.

Don't wait, debate or argue with yourself. See that your order is placed immediately.

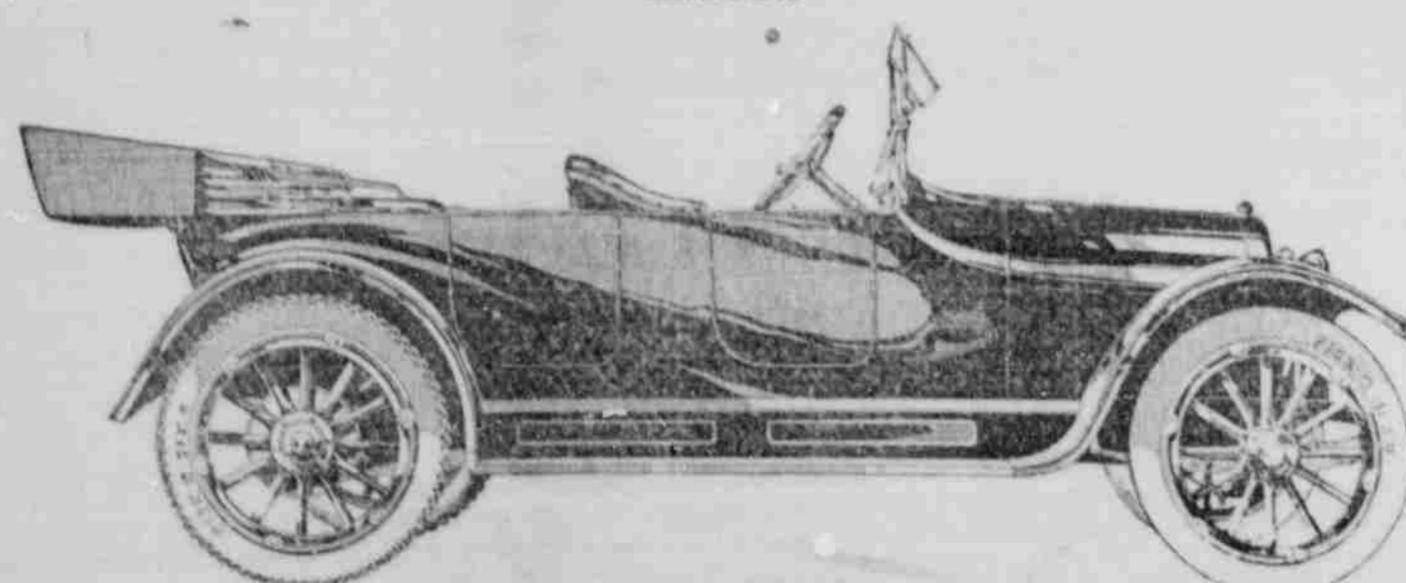

Then in a few days you and your whole family will be driving your own car.

Remember it comes complete—only \$615!
